Trust

Gallery One has partnered with some of the most globally-recognized clients since 2005.

Inspire

A team of specialists, all with art and/or design backgrounds who have a deep understanding of the nuances of art and the intricacies of design; we're not only art consultants but interior designers, furniture designers, product designers.

Strategy

We begin with detailed analysis and surveys. An understanding of project goals and aspirations is vital to the ultimate outcome and informs our art & design solutions. Studies of human behaviour and movement within a space allow us to determine the ideal locations and context for the artworks. Only after this initial analysis and investigation has been completed will we then develop an Art Master Plan for the project with a distinctive "Art Narrative".

Concept

Upon selection of a preferred narrative direction, our art consultants work with Gallery One's team of in-house artists and local artisans to develop and specify unique, original paintings, drawings, sculpture and photography, along with custom-made ceramic pieces, glass work, textile designs and furniture. Concepts are taken to full development through hand sketches, renderings, 3D models and physical prototypes.

Technical

Once concepts are approved, we collaborate with the architectural team on location plans and create suitable BOQs, taking into consideration the best and most appropriate materials to use, the functionality and the conditions of the space, artwork sizes and specific art mediums. We determine project objectives, goals and parameters, all within the agreed budgets.

Production

Gallery One manages all aspects of the creation and production of locally sourced artwork pieces within our own dedicated facility – the Gallery Workshop. This allows us to ensure correct quality control at all points of the production process.

The Gallery Workshop is a world-class production and framing centre, using the best equipment and employing a team of highly trained experts. It is the definitive resource in the Middle East region for the hospitality, healthcare and corporate sectors, and has unrivalled experience in fulfilling multiple substantial orders.

Installation

Integral to the overall success of a project is the correct placement of each art piece. Our experienced technical team along with our art consultants and interior designers, work closely with the site supervisors and the client to ensure that the items are installed correctly, with care and ease.

Enrich

Creating enriching spaces requires more than good taste and interestingly designed objects.

Gallery One knows this.

With our network of artists, artisans and craftspeople working in every conceivable medium and scale, Gallery One has been enhancing spaces through implementation of our fully tailored art programmes since 2005.

Let Us Embellish It

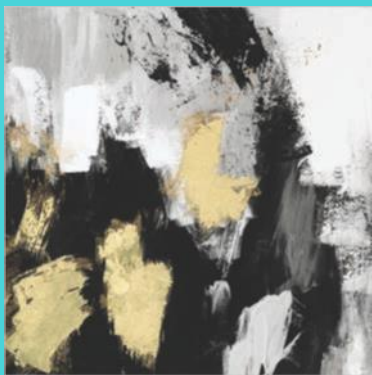

Our hand-embellished product line is a unique and fresh approach to the typical print or poster. Our team creates each piece by using a variety of mediums and methods. Since most prints are moisture resistant, no glass or matt board is required for framing. We can put any of the following treatments on almost any design, canvas or paper to create a completely custom-made embellishment for your project.

- + deckle
- + crackle
- + decoupage decorative paper
- + matte gel medium
- + metallic accents
- + metal leafing
- + stenciled embellishments
- + gloss gel medium
- + stains + washes
- + sculpture media
- + deco graph
- + metallic foil

Embellished

You don't have to be
crazy to work here.

We'll train you.

You don't understand?
Let me explain it again
the exact same way.

Keeping your job is
the new raise.

Pretending to look
busy on a Friday
is hard work.
